

Connecting the resources that empower innovation.

Innovative, global Supply Chain Solutions for your most complex products.

Especially in today's global product development landscape, you need to know your product is in capable hands through its entire lifecycle. At Plexus, our Supply Chain Solutions team provides that assurance. When you work with us, you'll find hundreds of skilled supply chain professionals who are eager to embrace your complex needs and find creative ways to manage your entire supply chain. Our proactive approach focuses on identifying risks, mitigating them and getting your product to market on time, at cost and to specification.

Collaborative partnerships.

When you work with Plexus, you can expect a level of collaboration, trust and transparency you won't get anywhere else. Our team engages from the beginning – from the first concept, through Design and Development, to Manufacturing and Aftermarket Services. We'll work side by side with you and collaborate at every point in the process as we develop your supply chain solution.

Flexible, customized solutions.

At Plexus, we go beyond "off the shelf." Your product needs are unique, and your supply chain solution has to be, too. We'll listen to you and work closely with your team to create a solution that's tailored to your business objectives and your customers' needs. We'll be a bridge connecting you to the right suppliers in the right global locations, with the agility to proactively address any risks to your product's success.

Superior risk mitigation.

High-complexity products come with complex risks to your supply chain. We're experienced in identifying these risks early on, and we have the tools and processes to mitigate any potential impact to you. Our teams are highly skilled, and they're passionate about helping you get your product into your customers' hands in the most efficient and reliable way. That's why we'll find every avenue to create greater predictability in your supply chain.

Customized Supply Chain Solutions from a trusted, dependable partner.

At Plexus, we're known for embracing your complex needs and finding creative ways to manage your entire supply chain. With decades of experience and a proven track record in complex supply chain problem-solving, we've developed proprietary design, analysis and simulation tools that instill confidence in our ability to get your product to market on time. Our team is experienced across industries, and we're excited to tackle the challenges that are unique to yours. Engage with Plexus and we'll work as an extension of your own organization to create a global supply chain solution that's as flexible and scalable as you need it to be.

How we engage.

We understand that your supply chain needs are unique. That's why we designed our approach to capture all of your requirements and deliver a solution that's specific to you – and flexible enough to change as your needs change.

Our supply chain process ensures that we:

- Understand your challenge
- Provide proof of concept
- Select the right suppliers
- Identify spend distribution
- Optimize your supply chain
- Find the right cost
- Employ state-of-the-art tools
- Show results
- Provide Aftermarket Services support

Your goals are our goals.

We know you need a team who will go the extra mile to meet your needs. A partner who has the expertise to support your product's supply chain needs from initial idea to long after the sale. At Plexus, we'll partner with you, our trusted suppliers and within our organization to provide a full lifecycle solution that meets your business objectives.

Risk mitigation tools and expertise.

The world is uncertain. That's why we've invested in the risk mitigation expertise and proprietary tools that allow us to create a supply chain solution you can be absolutely sure about.

- ALARM™ – Helps us proactively mitigate risk by providing end-to-end supply chain visibility, predicting disruptions and analyzing internal and external threats
- Market Alert – Notifies our team whenever an event occurs that could pose risk to our suppliers, our customer or our company

Other risk mitigation tools.

- Zero-tolerance counterfeit policies and protection
- Trade compliance tools such as Amber Road, Macrolynk and Integration Point
- Tracking of federal and state labor, trade, civil rights and consumer protection legislation
- Comprehensive suite of compliance management systems
- Advanced Materials Research (AMR) to ensure accurate supplier appraisal, evaluation, selection and management
- Dedicated transition management
- Real-time sales, operational and financial planning processes
